

## Trading Terms:

A Limit Order is an instruction to place a CFD Trade at Our Price (agreed with us) that is more advantageous to you than Our Price at the time the Order is placed. For example, an instruction to sell at Our Price that is higher than is currently available or to buy at Our Price that is lower than is currently available.

A Stop Order is an instruction to place a CFD Trade at Our Price (agreed with us) that is less advantageous to you than Our Price at the time the Order is placed. For example, an instruction to sell at Our Price that is lower than is currently available or to buy at Our Price that is higher than is currently available.
